Well I'm glad that somehow anime games are made but it's only 15 seconds of 3D animation of this character that is in the trailer . Rest , about 200 pages are like reading a book. I'm not satisfied but I give thumbs up . Hope when creators will have more money maybe next time they will make something better. 360 few scenes are unexpectedly poor somehow Graphics maybe is not fully prepared to be in 360 view. If you are prepared that this doesn't have more than 15 seconds of 3D animation and other cutscenes about another 20 seconds of animation and you are prepared that this is like reading a book only then you can give it a try.
