About This Game

You are a mine worker, stuck deep in an underground cave system. All you have are your hi-tech mining tools. In order to get out of the caves, you will have to shape the dynamic environment to your advantage. You can also create force fields for different purposes. Roast enemies with the laser field or jump higher with the bouncy field, for example.

The game contains many puzzles, deadly traps, and bloodthirsty monsters. You will have to use clever and unconventional ways to get past them.

By finding treasure you can boost your abilities, making your quest for freedom and a well-earned vacation slightly easier to achieve. Get a scanner to see through walls or a scifi version of the good old ninja rope to be the king of the rock jungle!

And of course there's a story! Something weird is going on in the mines. Your employer isn't what it looks like, you are hearing strange voices, and there's some maniac running around in the mines and sabotaging things. What's your role in all of it? Find out!

There's also multi-player! Whereas the single-player mode is more about adventuring and solving puzzling problems, the multi-player mode is all about fast-paced action and destruction! The dynamic environment and many different weapons, tools, and tricks allow endless tactical possibilities to beat your enemies.

Based and redpilled. You might not believe in astrology or tarot cards, but who doesn't enjoy a bit of mystic mumbo-jumbo really ?

Kismet is basically an interaction with an ethereal gypsy fortune teller. She will read your horoscope or your tarot. You can also play some traditional board games with her. It is a relaxing and meditative experience. You won't put many hours into it, but you may come back to it from time to time for a bit of spiritual guidance.. what an awful game. 10V10. Jesus teamed up with Hitler and beat up Anne Frank

0V10 triggers my anxiety. Looks like it could be a fun ecosystem management simulator, but instead it's just a clicker game with obnoxious sound effects.

. <https://tenor.co/vru5B.gif>. I enjoy this game a ton. A problem I am having is on level 5, there are a bunch of white barriers everywhere, making it harder to get items and harder to see the enemy. I don't know if that is suppose to be like that or if it's a bug.

[But so far: Great game!](#)

Wow, this game is shaping up!!

All ready a lot better & more polished then Pavlov or Onward.

Hope this gets the hype it deserves when it comes out :). The graphics are \u2665\u2665\u2665\u2665\u2665 You cant land on a road going 50mph or you'll bounce off it. There are only 5 or 6 planes. Overall, it looks like someone made this in 5 hours.

. Well, it is boring. As a browsergame perhaps it would be something, but even then...

Pros

- easy to learn

Cons

- bad UI (not much to do, but still it could be better)
- repetetive beyond believe (Assign Heroes, wait, assign heroes, wait, repeat until death)
- Nothing to do beyond assigning heroes

You have this really big guild and all you have to do is buying some rooms.

All they do is regenerate certain attributes.

Things you can do:

- hire heroes
- buy rooms (finite numbers)
- buy upgrades (Finite and cheap)
- buy equipment (Finite and rather cheap)

- assign heroes and wait
- assign heroes and wait
- assign heroes and wait

And once you have done most of the upgrades, which is depending on difficulty rather early on.

You mostly WAIT.

And the rooms have NO real Function.

I like building games and this one could have been something.

Research in the lab, Artifact building in the smithy, special training in the combat hall.

There are endless possibilities and NONE were implemented.

You know the browsergames where you send your heroes somewhere and then wait a few hours doing something else until they are finished.

This is quite similar, but not as much fun.

. Amazing experience, great voice acting, great graphics and performance, extremely well written story. 10/10. 2 thumbs up. I love the GTGD series its fun its informative and it is a bargain. If you want to be a game developer but dont know where to start look here.. The storyline is great. I enjoy it tremendously!!!!. The life of a trader, If you enjoy expanding a business this game is for you.. Any company that sells out on their community is a game that I am forced to recommend against. Expect this game to slowly be integrated into the Epic Game Store and for the steam workshop, groups, etc to be removed from the game. If you are ok with eventually having to play this game using the Epic client then you will enjoy this as the game is pretty fun.
